Dear Parents,

Welcome to St. Paul School. Our mission is to provide our students with a Catholic education that fosters a child's growth and development in all aspects of a child's life. First and foremost, we believe that parents are our partners in education. Prior to entering school, you have provided them with learning opportunities and experiences that will shape their learning and personal growth process. It is our vocation to build on that experience and provided your child with the best education possible in a loving, Catholic environment.

We believe that children learn best in a safe, structured, nurturing environment where everyone is treated with respect and love. We recognize that all children are capable of learning and that their God given gifts and talents need to be recognized and developed. Saint Paul's offers an excellent education that addresses the needs of our students in an enriching safe and supportive environment for 21st century learning.

The material in this packet is comprehensive in scope and should be read carefully so that you are aware of the many opportunities we have here at St. Paul School. Please meet with the teachers, speak with our parents and tour the school so that you can experience our school's special learning environment.

If you have any questions or would like to schedule a day visit for your child, please do not hesitate to call. If I can be of further assistance, please let me know.

Sincerely,

Cindy Richard

Cindy Richard
